Well-being Assessment and Intervention Model – Based on GIRFEC Well-being Indicators

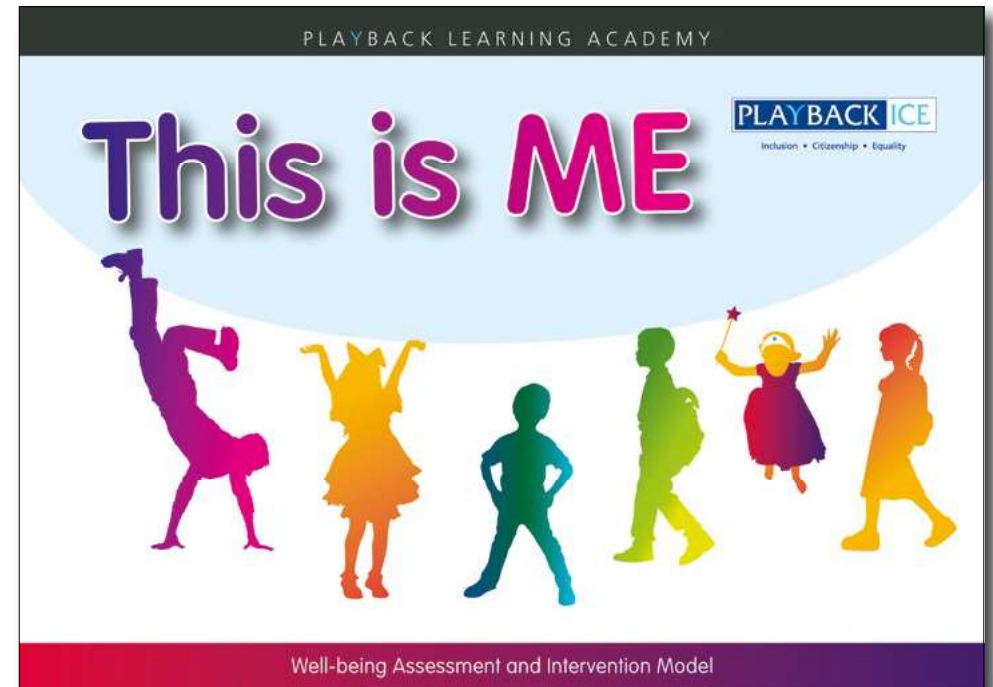

THIS IS ME!

Well-being is now high on everyone's agenda and must be the foundation of hope for the future following Covid-19.

The national priority is ensuring children's well-being in response to Covid-19. It is essential school leaders measure, plan and monitor children's well-being considering their individual experiences. Our hybrid model of crisis intervention using the GIRFEC well-being Indicators provides the ideal tool to digitally collect rich, robust data directly from children about their experiences during Covid-19 at home. This will enable pupils voice through a right based approach and provide schools with crucial data to assess children's needs, plan interventions and monitor impact. This may include:

- additional in school targeted support.
- specialist input from external agencies.
- child protection procedures to be followed.

Using this more robust and meaningful method of gathering data will provide a more contextualised learning experience for children and allow them to be more open and clear in their thinking.

Hybrid Model

Our model will provide schools with the tool to complete the first step via our digital application.

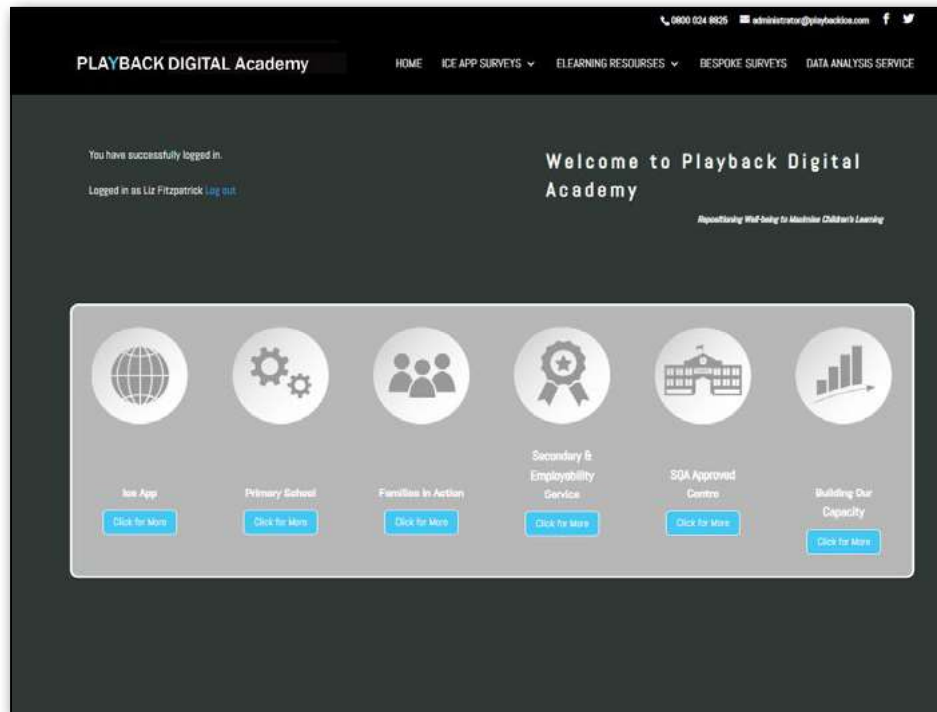

The features of our application include:

- Designated School Web Application
- Secure URL and Server
- Single user log in – multi users complete the survey at the same time
- Individual pupil reports emailed to nominated school lead immediately
- Playback will produce 2 amalgamated school reports with statistics set out in graphical formats
- Compatible with I pads and other digital devices

The cost per school is a discounted rate = See page 9

Playback ICE Ltd has asserted the right in accordance with the Copyright and Patents Act 1988 to be identified legally as the owner/author of this resource. All rights are reserved in respect of the copyright of this resource. The GIRFEC well-being survey (Area 2) is available using Playback Learning Academy Digital Survey Application only and cannot be copied to other systems such as Survey Monkey, Google or Surveygizmo.

The cost of each package includes:

Phase 1 and 2 individual survey reports for all pupils.

Phase 1 and 2 amalgamated reports produced by Playback Data Technical Staff.

Select and order your package for your school

Package	No of Pupils	Cost	Phase 1 and 2 Timescales to Complete Surveys
1	Up to 120	300.00	August – December 2020
2	Up to 250	450.00	August – December 2020
3	Up to 400	600.00	August – December 2020

Note: We are happy to negotiate the cost to suit individual school budgets and if numbers are slightly over or under the numbers allocated to the packages.

Note: If your pupil population is bigger than 400, we would negotiate a price that suits your budget.

Survey Implementation Steps

1. Schools purchase surveys for Pupils in P2 - P7 (school leaders will identify pupils to participate).
2. Schools are allocated a singular log in and password allowing multi-users to complete the Phase 1 survey – compatible with Ipads and Mobiles (You can use Airdrop from Ipads which let the teachers log into the survey then share with contacts (pupils).
3. A User Manual is included to support staff negotiate the site and test the survey process.
4. The system will automatically generate individual Pupils Reports that will arrive in the school administrator's inbox within minutes of completion – see order form.
5. The school administrator should inform Playback when all pupils have completed their surveys to request the amalgamated report using this email: **administrator@playbackice.com**
6. Amalgamated Survey Reports with statistics set out in graphs or pie charts will be produced by Playback staff and will be presented to the school within 48 hours of the surveys being completed.
7. The Phase 2 survey can be completed at the school's own discretion.
8. Technical support is available from the Playback Learning Team.
